

# User Manual for My Calendar Monkey

## Introduction

**Purpose of the Manual:** This manual provides users with guidance on how to effectively use the "My Calendar Monkey" widget.

**Overview of the Widget:** "My Calendar Monkey" is an interactive calendar widget that allows users to navigate through months, click on specific dates, and view or add journal entries. Inspired by mindfulness practices, this widget is designed to provide a personal space where users can maintain and reflect on their thoughts, feelings, and daily activities.

## Getting Started

### Requirements:

- **Web Browser Compatibility:** Compatible with the latest versions of modern web browsers including Google Chrome, Firefox, Safari, and Edge.
- **JavaScript:** JavaScript must be enabled in your browser to ensure full functionality of the widget.
- **Internet Connection:** As this widget is hosted online, a stable internet connection is required to access and interact with it.

### How to Access the Widget:

1. Visit the URL: <https://cse110-sp24-group19.github.io/warmup-exercise/>
2. The widget should load automatically, ready for use.

## Usage Guide

### Features

- **Calendar View:** The calendar provides an interactive month-by-month display, allowing users to navigate through different months and years (if applicable) to access journal entries from past or future dates.
- **Day View:** Upon selecting a specific day, the Day View opens, showing all journal entries related to that day. This view is designed for easy reading and allows users to quickly get an overview of their recorded thoughts and activities for any chosen date.

### Navigating the Calendar:

- **Month View:** Use the left and right arrow buttons located at the top of the calendar to switch between months. This view displays all days of the current month, with days that contain journal entries highlighted.
- **Day View:** Click on any day in Month View to transition to the Day View. Here, you can see all journal entries listed for the selected date. To return to the Month View, click the "Go Back" button.

### **Managing Entries:**

- **Accessing Entries:** Click on any highlighted date to view the entries for that day. The Day View will show detailed information about each entry, including the title and a snippet of the content.
- **Navigation Between Entries:** Within the Day View, you can scroll through the list of entries.
- **Note:** At the moment, the ability to add new entries is not available. This functionality is planned for future updates

### **FAQs**

Q1: What should I do if the calendar doesn't load?

A: Ensure your internet connection is stable and JavaScript is enabled in your browser settings. If problems persist, see technical support for more information.

### **Technical Support**

**Contact Information:** For any technical issues or inquiries, please contact [riali@ucsd.edu](mailto:riali@ucsd.edu) or [mgorobchenko@ucsd.edu](mailto:mgorobchenko@ucsd.edu)

### **Feedback**

We value your feedback to improve My Calendar Monkey. Please send your comments and suggestions through the same emails listed above in support.
